Mr. M. J. Venerosa
CI-726 (52-11)
Douglas Aircraft Co.
3855 Lakewood Blvd.
Long Beach, CA. 90846

Dear Mr. Venerosa:

In response to your recent request, we are pleased to send you our Material Safety Data Sheet on the product(s) of interest.

This form is patterned closely after USDL Form No. LBS-00S-4 May 1969 and is designed to answer questions raised by the Occupational Safety & Health Act of 1970.

The greases are not regulated or restricted articles for shipment. The two solvents are both classified as "Petroleum Naphtha", both have IATA No. 1210. Shell SOL® 360-EC is flammable and must be labelled as such on all containers, regardless of size. Shell SOL® BT-67-EC is a "Combustible Liquid" for bulk shipments, but not for containers less than 110 gal.

Yours very truly,

H. Low, Staff Technologist
